

Good day-

I have been working for Corrections for just over five years and previously completed my military career as a Staff Sergeant with the 155th Security Forces.

With my military career I frequently worked and trained with police officers and other professionals in the security field.

I have a degree in Business Administration as well as years of experience in management and handling funds. Prior to my current position at RTC I was the office manager for a landscape company where I handled all aspects of the business; customer service, advertising, payments, hiring/firing, billing, designs, and all other daily requirements to run a successful business.

Thank you,

Michael Reich
